Slide insert card with patient information into sealing pocket on back of wristband. Press to create a secure seal.

Conf-ID-ent™ Blood Card System

Ideal for outpatient use, the new Conf-ID-ent™ blood card system with alphanumeric serialization establishes a positive link between the patient, the transfused blood and all related paperwork. Blood cards and red blood bands are available as a set or sold separately.

Blood Card

- Form includes 18 labels and 1 blood band insert card
- Labels are pre-numbered with unique alphanumeric identifier
- Permanent adhesive on labels creates secure bond
- Latex and phthalate-free

Blood Band

- Soft, flexible vinyl for superior patient comfort
- Sealing pocket protects patient information from fluids
- Secure tamperproof button-style snap closure
- Insert cards included
- Latex and phthalate-free
- Also available separately in 2 colors:
 - Clear
 - Red
